

Environmental Policy

As a company we are committed to protecting the environment in which we live and work.

It is company policy to meet all current UK environmental legislation.

In particular we will fulfil our Duty of Care and other responsibilities under the Environmental Protection Act and our effluent disposal obligations under the Water Industry Act.

We have adopted a policy of, wherever possible, avoiding waste production, and reducing, reusing and recycling, to minimise solid and liquid waste.

We will continue to strive to protect the water environment by complying fully with statutory requirements and best practice in the handling, storage, use and disposal of any chemicals we use.

Our Policy

Our Environmental Policy publicly affirms our commitment to operating in an environmentally responsible manner. Emphasis is placed on continuously improving our performance, by reducing the environmental impact of our operations, and compliance with all the relevant environment legislation.

In accordance with the above Policy commitments, Call Logging Limited will: -

- Ensure our operations are safe for our employees, consumers and the environment.
- Reduce or prevent the environmental impact of our operations and our products and packaging in their manufacture, distribution, use and disposal.
- Meet or exceed the requirements of environmental laws and regulations.
- Continually assess our environmental technology and programs and monitor progress toward environmental goals.
- Provide appropriate factual information to consumers, customers, employees, communities, public interest groups and others. This includes relevant health, safety and environmental information about our products, packaging and operations.
- Ensure every employee understands and is responsible and accountable for incorporating environmental considerations in daily business activities.
- Have operating policies, programs and resources in place to implement our environmental policy.
- Commit staff and resources to ensure that the objectives are met.
